FOR IMMEDIATE RELEASE

ASI Brings New Member Into Leadership Team

Fort Collins, Colo., August 6, 2009 - - Accounting Systems, Inc. is proud to announce its latest addition to the ASI Leadership Team, Kate Krueger. Along with being a Sage MAS 90/200 lead consultant for the last six years, Kate has also taken on responsibilities as a Support Manager, Project Manager and instructor for ASI's certified training courses.

"Kate has consistently demonstrated her commitment, dedication and her unique innovation to help further ASI," said Bredt Eggleston, President. " In the Support Manager role, she's helped build the support contract revenue center and maintained the MAS certifications. She accommodates the Training Center needs with her willingness to fill in for classroom training. And most notably, she has become an excellent Project Manager, with continual compliments from her satisfied clients."

As a Leadership Team member, Kate works with Bill Entwistle, Senior Consultant, and Bredt Eggleston, President, on implementing company improvements to improve ASI's processes, objectives and client satisfaction.

Currently, Kate is working on ASI's third annual client survey, designed to measure client satisfaction and determine areas for improvement. The survey will be sent out in November. She is also working with the Web design team to make support tickets easier to log and improve client communication throughout the support process.

"I'm grateful to have the chance to improve ASI's support department," she said. "We aim to continually improve client relationships and make sure we are providing them with what they need to be successful."

Meet Other ASI Leaders

Alongside the Leadership Team are Chris Devault, Patrick Lien, Diana May and Katie Jo Cordes to assist with other needs clients or prospects may have regarding specific software systems.

Chris Devault, Account Manager, is also the lead sales consultant for Sage MAS 500. "The technology platform and flexibility of Sage MAS 500 allows us to effectively improve processes within most industries, while allowing us to continue focusing on our vertical markets."

Patrick Lien is the lead sales consultant for Sage MAS 90/200 and SYSPRO. He visited both the Sage and SYSPRO headquarters in Irvine, Calif., last month to plan overall improvements for the coming year. "One of ASI's greatest strengths is that we're always working on making internal improvements to better help ASI and our clients," he said. "I'm looking forward to enhancing our relationships with both SYSPRO and Sage."

Diana May, Technical Consultant and Project Implementation Manager, leads Deltek implementation and works with CRM software including Sage CRM and Sage Saleslogix. She has over 20 years of consulting experience.

In addition to keeping in contact with ASI's client base, Katie Jo Cordes, Client Relations Manager, has become more involved in helping clients analyze their needs to find opportunities to improve their processes with add-on solutions. She has also dedicated much of her time in recent months to website development in order to provide prospects and clients with extensive product and solution resources.

"Our team has been working together to offer an excellent product to the marketplace," said Brett Eggleston, President. "We have made a variety of internal improvements geared toward an excellent customer experience including promoting within our team, adding new products, improving client support and streamlining the sales process. As the owner of ASI, I am very excited about what we have to offer to the Colorado marketplace."

Accounting Systems, Inc. is a Microsoft ISV and value added reseller of business management software and offers products such as Sage MAS 90/200, Sage MAS 500, Sage CRM, Sage Saleslogix, Sage MIP Fund Accounting, SYSPRO and Deltek Vision. Since 1991, ASI has helped over 250 Colorado businesses find and support an integrated business solution. For more information, visit www.asisucceed.com.
