

Credit Card Interface for SYSPRO

Overview

To improve cash flow and reduce bad debts by conveniently collecting payments real-time or accepting payments for open invoices via credit cards.

The Value of Credit Card Interface for SYSPRO

- Reduce risk of non-payment by pre-authorizing credit card at time of order
- Automatically bill the credit card at time of invoice
- Accept payment for outstanding account balances
- Accept deposits while placing an order (requires Counter Sales module)
- Immediate notification of acceptance or denial
- Efficient integration updates SYSPRO real-time
- Save time and reduce data entry errors
- Integrate via the internet with VeriSign (PayFlow Pro) and Authorize.NET
- Integrate via modem with ICVerify
- Minimize fraud with Address Verification Services (AVS), Retail AVS, CVV2, CVC2

Matching Credit Card Interface to your business

- Payments can be made in installments with a variable number of installments and payment dates
- Archive up to nine years of transaction information for financial tracking, reconciliation & marketing demographics
- Freight, miscellaneous charges and tax can be included in the first installment or spread over the number of installments
- Provide automatic prompts for credit card details
- Store credit card information for multiple cards per customer
- Authorized transactions display authorization codes and verification of installment information
- Reason for denying cards is displayed, allowing the user to re-enter information or choose another card
- Cater for counter sale orders and standard orders
- Allow for on-line, batch and installment transaction processing
- Transaction information can be updated or changed on the fly

Integration

- Integrates with the Sales Orders, Counter Sales and Accounts Receivable modules
- Integrates with VeriSign (PayFlow Pro), Authorize.NET and ICVerify gateways

Audit Trails and Reporting

- Instantly updates Accounts Receivable payment history files with transactions
- For batch processing, a report displays payments that were authorized, those that were denied, and the reason for denial
- An installment sales report shows the original sale amount and payment mode

Payment Types Supported

- Credit cards: Visa®, MasterCard®, American Express®, Discover Card®, Diners Club®, and JCBR
